Some Facts and figures that have a bearing on the Victory Loan

America's debt at beginning of World War.....\$ 968,000,000
By July 1, 1917.....2,712,000,000
By July 1, 1918.....11,985,000,000
By Feb. 1, 1919.....23,250,000,000
By June 20, 1919 (estimated).....33,000,000,000

Deducting \$8,841,657,000 thus far loaned to the Allies, we may expect a net final debt of \$25,000,000,000.

Peacetime interest charge per capita was 23 cents. It is now about \$8.50.

War expenses from July 1, 1918 to Feb. 1, 1919 were approximately \$12,500,000,000, the estimated total for the fiscal year ending June 30, 1919, being \$19,750,000,000.

Consider the following review of regular appropriations for the army and navy.

	Army	Navy
1900	\$ 80,430,204	\$ 48,099,969
1905	77,070,300	97,505,140

WRECK AT EAST PERU
A special train of coal cars was piled up a few rods south of the station at East Peru, Saturday evening, and all the available section men from Canton and Rumford worked all night and all day, Sunday clearing away the debris. Seven cars left the rails and the way was completely blocked for several rods. It was considered extremely fortunate that none of the crew was hurt as the cars leaving the rails were only three cars ahead of the caboose.

Middle Intervale

Reading of the deaths of the Gill children, etc., takes us back to the year 1871, to the summer term of school we taught there in Greenwood, known then as the Irish District. Here are the names of the Gill children that attended school then: Mary Gill, age 12 years; Bridget or Della Gill, age 9; John Gill, age 6; Timothy Gill, age 10; Maggie Gill, age 17. Now but a few of them are living, but we remember those kind-hearted people and the children in the Gill and Connolly family were the best of pupils.

We think Mary Gill, the oldest girl, is a dressmaker in Boston. There were 31 pupils then and well behaved children, better than some Yankee children in these days. A school of no manners speaks of J. G. Rich's (the great teacher), children, went there as he lived there at that time. Their names were Bessie Rich, 7, and Payson Rich, 8 years. We remember their kindness to the teacher. "A kindness is never lost." A good life speaks of a good teacher as having a lasting influence among her pupils. When we meet an old pupil, we know well a teacher's influence is lasting. We recently met a woman in Oxford, who was a scholar for years ago and who told me that her father, Mrs. J. H. Glover, and a sister in South Paris.

ALBANY

Talk on War

Corporal Herbert R. Bean, formerly of Albany, but now of Lewiston, son of H. I. Bean of Lewiston was here at the Corner and attended the Circle Friday evening and after the Circle was over, he spoke on his experiences in the war for the last two years overseas, and of being wounded and of his narrow escape from bleeding to death before he got to the hospital.

He was the only one out the four young men who went to war with the Norway company that returned. The first man who passed away was Albert Pingree of North Albany. The second man was Corp. Eugene McAllister of Lynchville. He was killed in action last July. The third man to fall of pneumonia was Bernard Judkins.

To look at some of the papers, a stranger would naturally think that Albany did not send any soldiers to the late war as long as the mail in our town all comes direct either to Bethel or North Waterford and then delivered to different parties of the town by the different mail carriers.

The following men were drafted from our town: Herman Cummings, Guy Johnson, Forest Churchill, Ervin Morey, Elmer Saunders, Jos. Paine, the two Cobb brothers, and Guy Dexter Cummings, who passed away in the Lewiston hospital about the time he was drafted, making in all that Albany furnished 12 men for the war, and she furnished between 55 and 60 men for the Civil War.

In the Civil War there were 7 killed in battle, 3 badly wounded, 11 died of disease, 23 came back without being wounded. We now know of only 3 of the old soldiers that are now living and not one of them live in the town of Albany. Two live in the far west and one in Massachusetts, five in the State of Maine.

North Waterford Grange was invited and in spite of the hard roads there were a lot present including Grand Master, Howard Allen and his family, Rev. Mr. Eliopoulos, Mr. Guy Morse, Fred McAlister, and wife, Mr. and Mrs. Lebroke and wife.

Music Will Help You

To Harmonize
Yourself with your condition
Your work with your pleasure
Your Family with your home.

MUSIC will help you to live your life so as to get the most
out of it, to do your work so you can put the most into it, and it
will help every member of your family as it helps you.

We have just passed through strenuous times. Music carried
us over the rough places, kept our hearts up and our nerves steady.
The whole nation worked with a will, worked together and
accomplished its purpose to the rhythm of music. And the rhythm
of music will never pass out of our lives. It will be waiting for
us at the end of a hard day's task, it will bring us rest when rest
is what we need. It will add to our gaiety when we want the
brightest to sparkle. It will fill the empty chair when we are
lonesome. It will bring us quiet contentment, rich enjoyment,
solid comfort according to our desire and the need of the moment.

Yes, it will help every one of us over stony paths and along
the broad highway. And it will help each member of our family,
for it develops that community of interest, that bond of unity
so valuable to a Family or to a Nation.

See that Music brings its blessings to You and Your Family.

A REAL IRON TONIC

Like Pepton May Be Just What You Need This Spring.

Probably nine people out of ten have lost or are losing their grip on health in these trying months of awful epidemics, exposures to damnable weather, and association with sick people in crowded homes. Depleted blood, loss of the red corpuscles, shattered nerves, loss of appetite, dizziness, feelings in the head, irritability, all loudly call for the real tonic strength and nourishment that Pepton will give you. It is a wonderful corrective of anemic tendency, restores the blood and gives a natural vigor and snap that keeps up courage, makes you cheery and helpful to your family and friends, and contributes wonderfully to the health of all. Remember this one thing—as vitally, positively true—Pepton is a real iron tonic.

Standing, sitting and walking corsets are the first essentials to good posture and that elusive charm we call femininity.

ALL women wish to be well; but all women do not appreciate the vital importance of correct corsetry as an essential to good health. The well-known medical authority, Alice S. Cutler, M.D., warns us: "As a physician who knows that if it were not for ill-fitting and the wrong kind of corsets we would have very few female invalids, I am naturally determined to do my best to help you to get the most out of your corset."

GOSSARD CORSETS

The Original-Unequalled Front Lacing Corsets

have attained their unquestioned superiority by assisting nature to perfect expression. Every Gossard is hygienically correct. Properly fitted to the figure for which it was designed it will give scientific support to abdominal and back muscles, with no chance of undue pressure at the waistline; the organs of nutrition will be free from pressure; the erect posture which is induced will encourage deep breathing and the diaphragmatic muscles become strong with use.

We unreservedly recommend Gossard Corsets as the complete expression of modern corsetry. Our highly specialized corsets are constructed with a full appreciation of the needs of the modern, active woman.

Gossards are priced at \$2.50 \$2.75 \$3.00 \$3.50 \$4.00 \$5.00 \$5.50

The Gossard is one of our most popular lines, we fit the Gossard.
